COMBO

COMBO   modular, hpl / mfc / glass doors

Body:

METAL - powder-coated galvanized steel

Doors:

HPL - High pressure laminate
MFC - Laminated Chipboard
GLASS - Tempered glass

Prepared for
Smart Locker

PATENT OFFICE OF THE REPUBLIC OF POLAND

Patent
P.434877 (lockers)
Protected design
WP.30407 (hinge)

Description:

The COMBO lockers combine the best features of products available on the market. They have the lightness typical of metal bodies, while the doors, being the most exposed to wear, are made of durable materials.

The locker bodies are always made of galvanized steel, coated with powder paint. The doors use materials available in various decors and structures, allowing for the creation of unique designs.

Thanks to the patented modular construction, the possibilities for locker applications are practically limitless. The body can be customized even after delivery to the destination. Changes to the interior equipment, dimensions, opening direction, and even door material are possible.

Combining durability with elegance and competitive pricing - COMBO lockers are, in our opinion, the perfect choice.

- only Torx screws are used
- fully assembled product
- the possibility of custom built
- easy to clean

Quality confirmed by certificates

Flexibility for changes at any time

Even gaps between the doors

**Certificate of conformity number: PN-EN 16121+A1:2017-11**

Locks for lockers

Security - a common value of the locks we offer, that is why we only provide those from reputable manufacturers. Below, we describe three additional features that guided us in selecting the locks for our products.

Waterproofnes - prepared to work in any conditions.
Prioritizing quality above all, we have decided that all locks offered by us are suitable for use in moist areas.

Interchangeability - lock models can be exchanged at any time, changing from a lower model to a higher one. This way, the locker room can be modernized without the need for costly door replacement. When changing locks to deposit or electronic locks, additional holes will have to be made in doors.

Availability - don't waste time waiting. A strong aspect of our offer is the availability of locks on stock, significantly reducing the time needed to complete the order. For projects with slot or digital locks above 200 compartments, please contact us to confirm availability.

Cam locks, the locks we offer have a 1/1000 combination, meaning the chance of opening with your key any another locker is 0.1%.

Padlock locks, an alternative to key locks is padlocks. The recommended shackle diameter for padlocks is 5-7 mm.

The option to use any lock.

We are not limited to our own selection; we can integrate the locker with any lock specified by the client.

Code locks are maintenance-free solutions. All code locks offered by us have a master key opening option in case the code is forgotten.

Deposit locks, Coin-operated or token-operated locks are capable of accepting coins or tokens into a special container. Locks can operate on coins of 1/2 EUR. In case of key loss, locks can be opened using a master key.

Electronic lock that support the standard RFID are modern programmable locks operated by CARDS, WRISTBANDS, or other RFID TOKENS. Available in both OFFLINE versions powered by batteries and ONLINE versions powered externally.

LOXER

LOXER transforms lockers into solutions

ALSANIT introduces innovative solutions in the field of lockers with smart locks, enabling electronic control over them.

Thanks to cooperation with the renowned brand LOXER, representing the most advanced intelligent locking system available on the market, we can confidently offer this solution to our customers.

LOXER stands out not only for its ease of use but also for its rich configuration options, ensuring easy management and convenient use.

The possibility of integration for any ALSANIT locker system

Full service including installation and training

The ability to integrate with the client's database

The ability to customize the software to individual needs

LOXER is an intelligent locker system that introduces a new era of facility management.

Examples of applications by industry

FUNCTIONS	OFFICES	SCHOOLS	STORES	PHARMACY	FACTORIES	SPORTS FACILITIES	LOGISTICS SHIPMENTS	HEALTHCARE	PUBLIC AREAS	GASTRONOMY
STORAGE	✓	✓				✓		✓	✓	✓
DISPENSE	✓	✓	✓	✓	✓	✓	✓	✓		
DROP OFF / PICK UP	✓	✓	✓		✓		✓		✓	
CLOAKROOM	✓	✓	✓		✓	✓	✓	✓	✓	✓

- Receive all your parcels from any carrier in one place.
- Effortlessly dispense workwear or distribute mail.
- Exchange documents or keys using easily managed lockers.
- Reduce costs by flexibly assigning users to lockers in the changing room.
- Control the circulation of tools or electronic equipment.
- Earn money by selling oversized items in hospitals, sports facilities, etc.

ALSANIT®

COLOR OPTIONS for the lockers
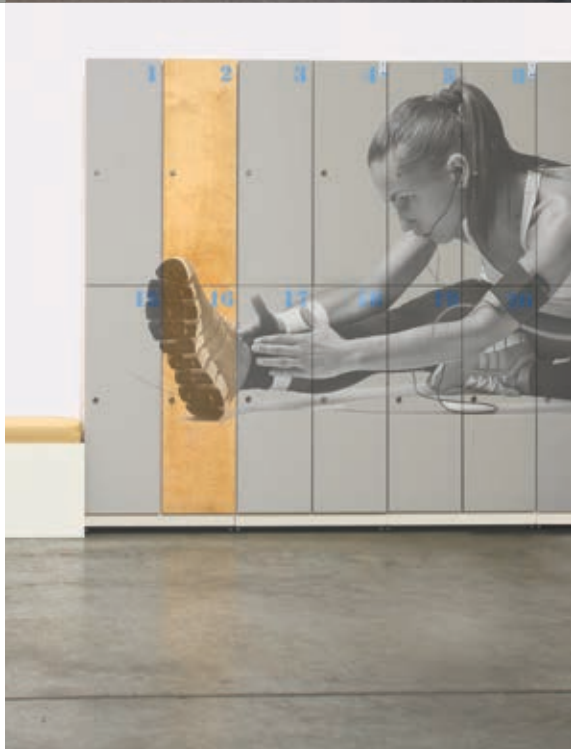

The STOCK version - at no extra cost

Take advantage of our extensive stock collection of available HPL, MFC, and GLASS, as well as metal paint, and configure furniture at no extra cost. There are countless configuration possibilities.

The EXTENDED Version - extra charge

If you would like to have the furniture bodies made in colors other than those originally designated for bodies, there is an additional surcharge of +15%.

BESPOKE Version - custom color scheme upon individual request

In addition to non-standard board colors, we can also enrich the project with graphics or decals. If you wish for colors not available in our warehouse collection, you can choose any board color, paint, or decor from the available palette, and we will order it for you.

HPL + MFC - available from the ALSANIT board suppliers' collections
PAINT FOR METAL + GLASS - available from the RAL color collection

20+
20 years of experience

25+
sales to over 25 countries

2600+
2600 projects annually

8000+
sqm of ALSANIT's hall space

40000+
doors produced annually

Our patented modular locker system is one of the best in the world.

The COMBO lockers are the result of years of experience and creativity. They retain the lightweight metal body while the modular design significantly enhances their durability and allows for flexibility in terms of shape and color.
